Getting Started

Installing the SIM card and battery

1. Remove the back cover

Place your thumb at the top part of the back cover and slide it downwards to remove it.

2. Remove the battery

Hold the top edge of the phone and use the fingernail cutout near the bottom of the battery to lift the battery from the phone.

Warning

Do not remove the battery when the phone is turned on; this can damage the phone.

3. Install the SIM card

Slide the SIM card into the SIM card slot (as shown below). Make sure that the gold contact area on the card is facing downwards. To remove the SIM card, pull it gently in the opposite direction.

4. Install the battery

Insert the top of the battery first into the top edge of the battery compartment. Ensure that the battery contacts align with the terminals on the phone. Press the bottom of the battery down until it snaps into place.

5. Install the back cover

Align the back cover on the battery compartment and slide it upwards until it locks into place.

Getting Started

Battery Information and Care

Always unplug the charger from the wall socket after the phone is fully charged to save unnecessary power consumption of the charger.

Charging your phone

Locate the Charger/USB Port on the left side of your phone. Insert the charger connector to the phone (the 'B' side of the connector has to be facing up when connecting to the phone) and then plug into the wall socket. Your LG 440G will need to be charged until the Full Battery message appears on the screen.

Important!

You must insert the battery before charging.

Warning

Use of unauthorized accessories could damage your phone and void your warranty.
